-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species A: embodiment of figures 2A-2D, deemed to correspond to claims 1, 2, 9, 13, 17, 21, 25, 29, and 32

Species B: embodiment of figures 3A-3D, deemed to correspond to claims 3, 4, 10, 14, 18, 22, 26, 30, 33, 34, and 36

Species C: embodiment of figures 4A-4D, deemed to correspond to claims 5, 6, 11, 15, 19, 23, 27, 31, and 35

Species D: embodiment of figures 5A-5C, deemed to correspond to claims 7, 8, 12, 16, 20, 24, 28, and 37

The species are independent or distinct because:

Species A requires a multi-layer ceramic green compact, which is not required by any of the other species.

Species B requires forming an insulating layer on external surfaces of a ceramic body after the ceramic body is sintered but before external electrodes are formed, which is not required by any of the other species.

Species C requires immersing a ceramic body into an acid or alkaline solution, which is not required by any of the other species.

Art Unit: 3729

Species D requires a heat treatment process in which insulating material on the external surfaces of electrodes is dissolved and blended with the external electrodes, which is not required by any of the other species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are deemed generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. A telephone call was made to the office of Jason Z. Lin on 08/21/2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 3729

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Livius R. Cazan whose telephone number is (571) 272-8032. The examiner can normally be reached on 7:30AM-4:00PM.
